

Hero Ultra Drive

SKU SH208317-Drive

PRICE €425

FEATURES

- Improves 4G and 5G signal, voice calls and SMS on eir, Vodafone, Three, and other Irish networks, with partial 5G coverage support.
- Designed specifically for in-car use, keeping your connection stable on the road, in rural areas, and low-signal zones
- Delivers clearer calls and more reliable mobile data during travel, helping you stay connected without dropouts

ABOUT

Reliable signal starts on the road, and Signal Hero Ultra Drive is built to keep your mobile connection stable while driving. No more dropped calls, weak signal, or slow data when travelling through rural roads, motorways, or low-coverage areas.

Designed for in-car use, it supports all major Irish networks, delivering stronger voice calls, SMS, and stable 4G with 5G support where available. The external antenna captures available signal outside the vehicle, while the booster strengthens it inside your car for consistent performance throughout every journey.

Ideal for daily commutes, long-distance travel, and areas where signal is unreliable. No subscriptions or ongoing fees. Backed by a 60-day money-back guarantee and 3-year warranty.

POWER SUPPLY	AC 100–240V
CONNECTORS	N-FEMALE
BOOSTER DIMENSIONS	22 x 14 x 5.5 cm
BOOSTER WEIGHT	<0.5 Kkg

INSTALLATION

1

The signal is received from the outdoor cell towers and transmitted through the cable to the booster box in your car.

2

The booster box receives the signal from the outdoor antenna and retransmits it to the indoor antenna via a cable.

3

The small antenna mounted on the windshield receives the signal and retransmits a clean, high-quality phone signal throughout the car.
