SKU SH20-300

PRICE €275 / €295

FEATURES

- Improves 4G signal for eir, Vodafone, and Three.
- Ideal for rural and remote locations where nearby cell towers are limited
- Delivers clearer calls and more reliable 4G mobile data indoors

ABOUT

Reliable signal starts at the source — and Signal Hero One 300 is built to bring it into your home. Missed calls, dropped connections, and unreliable data don't have to be part of daily life in rural or low-coverage areas.

Designed for locations served by a single mobile provider, Signal Hero One captures signal from the nearest cell tower using a dedicated outdoor antenna, delivers it via professional-grade cabling to the booster, and redistributes it indoors through a panel antenna. This setup is ideal for properties with limited nearby towers and for users who rely on one network.

Signal Hero One is especially **effective for 4G SIM routers**, improving both voice services and mobile data stability where outdoor signal exists but indoor reception is weak.

Installation is straightforward and follows a proven layout used in residential and rural environments. If you ever need help, our **Ireland-based support team** is available to guide you before and after purchase. There are no subscriptions or ongoing fees. Signal Hero One comes with a **60-day money-back guarantee and a 3-year warranty**, so you can improve your signal with confidence.

 INSTANT SIGNAL BOOST

 UP TO +70db GAIN

 SUPPORTS UP TO 5 USERS CONNECTIONS

 FAST NETWORK & DATA SPEED

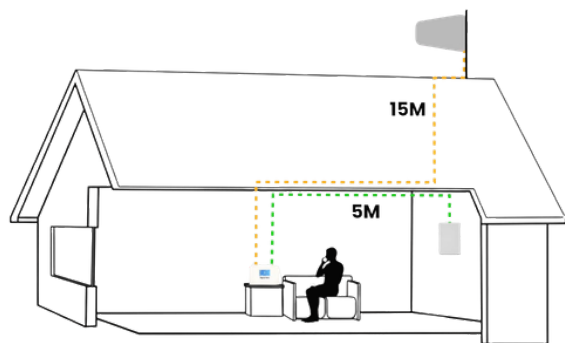

KIT INCLUDES

SPECIFICATIONS

MODEL NUMBER	SH20-300
FREQUENCIES	BAND 20 800 MHz
MAX GAIN	70 dB ±2
IMPEDANCE	50 Ohm
POWER SUPPLY	AC 100-240V
CONNECTORS	N-FEMALE
BOOSTER DIMENSIONS	20.6 x 12.5 x 4.8 cm
BOOSTER WEIGHT	<0.6Kg

INSTALLATION

1

The signal is received from the outdoor cell towers and transmitted through the cable to the booster box.

2

The booster box receives the signal from the outdoor aerial and retransmits it to the indoor antenna via a cable.

3

The panel antenna mounted on the wall receives the signal and retransmits a clean, high-quality phone signal throughout the property.
